

RICE HULL BLOWER

THE ONLY IN-FIELD, simple-to-operate, productive, remote-monitored, rice hull pot-topping equipment built for the wholesale container grower

Effective Weed Control Mulch

WHY FIELD APPLICATION OF RICE HULLS?

- ALLOW TIME for small liners to root and grow prior to mulch application
- ENABLE application to purchased plants
- APPLY initial pre-emergent prior to mulch
- NO MULCH TO DISTURB when moving plants out to field
- WEED CONTROL not tied to potting line
- ALIGNS with in field potting operation
- VISIBLE INDICATION of a proper weed protection barrier

RICE HULL BLOWER - SIMPLIFY YOUR NURSERY

- NO tracking spray interval or re-application
- NO Re-Entry interval
- NO interfering with plant sales
- NO APPLICATION EXPERTISE required
- EASIER hand weeding

PRODUCTIVITY SPECIFICATIONS:

Capability - 1330 lbs / hour - 26.6 bales / hour - 185 cf / hour
 Productivity - 2100 containers / hour (3 gal @ 1.25" depth)
 4 Bale Run Time - 9 minutes Fuel Run Time - 1.5 hours
 Hopper Capacity 50 lb bales - (3) Flush and (4) Heaped
 Hose Size - 2" X 100ft

CONNECTIVITY SPECIFICATIONS:

Data Communication Method - Cellular
 Data Collection - Machine state and performance, environmental conditions, location tracking
 Alert Notification - Failing battery or alternator, service intervals, hard starting, dirty air filter, leaking hose and plugging

EQUIPMENT SPECIFICATIONS:

Engine - Electric start, Honda GX200
 Tire - 205/65-10 Rim - 5 on 4-1/2
 Width - 69.2" Length - 112.5"
 Height - 61" Hopper Height - 51"
 Machine Weight - 1100 lbs
 Ground Clearance - 5" min
 Features - Hose reel, hose diffuser

WARRANTY AND SERVICE:

3 years of connectivity and live product monitoring
 3 year warranty
 Live updates about service intervals, preventative maintenance and productivity
